The  
2008

FOR OUR SECOND-ANNUAL SALUTE,  
Golf For Women asked leading dermatologists and  
industry experts to pick the products that will best protect  
a golfer's skin and hair. Here are the winners, and the  
skin-care and beauty aces who selected them.

*Los Angeles-based makeup artist; clients include Heidi Klum and Kate Hudson*

**RITA HAZAN**  
*Colorist and owner, Rita Hazan Salon, New York City*

# 1. SUNSCREEN

*These sprays and creams are among the best at blocking damaging UV rays.*

**EDITOR'S CHOICE** **Lancome UV Expert 20 with Mexoryl SX Daily Moisturizing Cream SPF 20 (\$35)** Mexoryl is one of the most powerful protectants against UVA rays, the ones which break down collagen and cause premature wrinkles and age spots.

**Banana Boat Sport Performance Dri-Blok Continuous Spray Sunblock (\$9)** "This is one of my favorite sunblocks because it protects against the UVB burning rays as well as UVA aging and cancer-causing rays," says Dr. Jody Levine. It's also nongreasy, sweatproof and waterproof.

**Clinique Super City Block Oil Free Face Protector SPF 40 (\$17)** "This is a protector for sensitive and allergy prone skin," says Dr. Amy Wechsler. "It works well and I love the low price."

**ColoreScience Sunforgettable SPF 30 (\$25)** "It offers excellent protection in a powder formula that goes on easily over or under makeup, without clogging pores," says Dr. Doris Day. "And the compact packaging fits perfectly in a purse or gold bag"

**Neutrogena Ultra Sheer Dry-Touch SPF 55 (\$10)** "Here's a sunblock that will work for everyone," says Dr. Ellen Marmur. "It contains the most advanced ingredients, including Helioplex - a UVA protector - and it stays on."

# 2. SKIN CARE

*Potent ingredients hydrate and restore essential moisture.*

**EDITOR'S CHOICE** **L'Oreal Paris Skin Genesis (\$30)** A natural molecule called Pro-Xylane penetrates the skin to renew cells and promote collagen production. The lightweight formula improves skin texture for a silkier, smoother surface.

**EDITOR'S CHOICE** **Estee Lauder Advanced Night Repair Concentrate (\$85)** Originally created for use after skin traumas, excessive sun exposure, dehydration or surgery, this concentrate hydrates and soothes skin.

**La Roche-Posay Active C Eyes (\$33)** "I like this because it's and antioxidant rich cream with vitamin C, which is beneficial to maintaining the health of the thin skin surrounding the eye," says Dr. Levine.

**Cetaphil Moisturizing Cream (\$10)** "This moisturizer is great for all skin types, from acne-prone to sensitive," says Dr. Wechsler. The lotion contains no lanolins or parabens, which can cause irritation. "It is incredibly gentle and has no annoying fragrance."

**Roc Retinol Correxion Deep Wrinkle Serum (\$20)** "Retinol is one of the most powerful antiaging ingredients and Roc's formulation is effective," says Dr. Day. The serum stimulates the skin's renewal process to restore luminosity.

**Olay Regenerist Daily Regenerating Serum (\$20)** "An excellent and affordable serum with amino peptides that rejuvenate skin gently, without irritation," says Dr. Day.

**TerraLina Facial Moisturizer (\$42)** "It moisturizes skin without leaving a residue," says Dr. Marmur, "goes on perfectly over sunscreen and also works to even out the surface of the skin before makeup is applied."
